Career Objective

I am a highly motivated and detail-oriented Front-end Web Developer with proficiency in Next.js (React), JavaScript, and TypeScript. Adept at creating visually appealing and user-friendly interfaces. Passionate about staying up-to-date with the latest web development trends and technologies. Eager to contribute technical skills and creativity to a dynamic development team. Frequently praised as diligent by peers, I can be relied upon to help your company achieve its goals. Dedicated worker with excellent communication, time management and computer skills. Aiming to leverage my abilities to successfully fill the vacancy at your company.

Experience

FRONTEND DEVELOPER INTERN

Mar 2022 - Aug 2022

[ZURI TEAM](#)

- Collaborated with the Backend and UI teams to develop a platform that efficiently splits CSV and JSON files into manageable chunks.
- Played a key role in the design and implementation of the file splitting functionality, ensuring seamless communication between the front-end and back-end systems.
- Demonstrated effective teamwork by closely working with both backend and UI teams to achieve a cohesive and integrated solution.
- Leveraged Next.js (React) for the front-end development, contributing to a responsive and user-friendly interface for the file chunking platform.
- Applied styling using a combination of Styled Components and Tailwind CSS to create pixel-perfect designs in accordance with the project requirements.
- Gained valuable experience in handling file processing and data manipulation tasks on the client-side, showcasing proficiency in JavaScript and React.

FRONT END DEVELOPER INTERN

Mar 2022 - July 2022

[KODECAMP TEAM](#)

- Constructed good user stories that helped in the project.
- Built an interactive responsive website using HTML5, ReactJS, and Tailwind.
- Lead the frontend team in delivering a unique web solution.
- Communicated effectively with Team members.
- Consumed existing APIs for practice using Axios and fetch API, APIs like thefake store API, and world countries API.
- Worked with quite a number of React libraries like react-router, react-pagination, react-icons and more.
